JOB EXPERIENCE

SOFTWARE DEVELOPER 2022 - Present Stefanini Brasil

Engaged in full-stack development with .NET and Angular, integrating advanced technologies such as MediatR, RabbitMQ and MassTransit, and employing Agile and DevOps methodologies. I managed Oracle databases and used TFS Dashboard, Jira and Confluence for project management.

SOFTWARE DEVELOPER 2021 - 2022 Agência Molla

Developed websites from scratch using Razor and JQuery. Maintained ASP MVC applications and Azure SQL database. Gained experience with Power Automate, IIS, and cloud environments.

SOFTWARE DEVELOPER 2019 - 2021 Grupo Ease

Maintained desktop ERP systems and ASP MVC applications in C#. Developed Power BI projects with PostgreSQL and Azure databases. Integrated ETL with Talend and Data Factory. Practiced Kanban methodology.

SOFTWARE DEVELOPER 2011 - 2019 LTS - Soluções Tecnológicas

Developed various desktop applications using VB.NET and managed MS SQL databases. Focused on data capture tools and billing document printouts. Provided support and maintenance for all developed applications.

SOFTWARE DEVELOPER 2005 - 2010 CIVS - Assessoria Sindical

Began my software development career, transitioning from office assistant to developer to meet company's need. Created a robust customized management system, learning data analysis, validation, and foundational software development skills.
