PROFILE

I am a dynamic and detail-oriented fullstack developer with over a decade of experience in developing and maintaining web and desktop applications. Proficient in a range of programming languages and frameworks with a strong focus on .NET technologies. Adept at working in fast-paced environments and committed to delivering high-quality solutions that meet business needs.

EDUCATION

Bachelor's Degree in Data Science

Descomplica Faculdade Digital

2023 - 2025

EXPERIENCE

Software Developer

March 2022 - Present | Stefanini Brasil

Engaged in full-stack development with a focus on ASP.NET Core Web API and Angular. Maintained GitLab CI/CD pipelines, worked with Oracle database, and implemented unit tests. Utilized agile Scrum methodologies.

Software Developer

March 2021 - March 2022 | Agência Molla

Developed websites from scratch using Razor and JQuery. Maintained ASP MVC applications and Azure SQL database. Gained experience with Power Automate, IIS, and cloud environments.

Software Developer

July 2019 - March 2022 | Grupo Ease

Maintained desktop ERP systems and ASP MVC applications in C#. Developed Power BI projects with PostgreSQL and Azure databases. Integrated ETL with Talend and Data Factory. Practiced Kanban methodology.

Software Developer / Partner

April 2011 - July 2019 | LTS - Soluções Tecnológicas

Developed various desktop applications using VB.NET and managed MS SQL databases. Focused on data capture tools and billing document printouts. Provided support and maintenance for all developed applications.

Jr Software Developer

June 2005 - June 2009 | CIVS - Assessoria Sindical

Started as an assistant, gradually took on more responsibilities including data analysis and billing document management. Developed a collection management application using VBA and MS Access, later migrating to VB.NET and SQL database.

CERTIFICATES

.NET Microservices: CQRS & Event Sourcing with Kafka, Apr 2023

For a new project at work, I wanted to learn more about Kafka and Docker applied to a .NET project. Learning more about CQRS & Event Sourcing was a plus and a great experience.

May 2023

SKILLS

- C#, VB.NET
- ASP.NET Web API, .NET Core
- MS SQL, MySQL, PostgreSQL, Oracle, MongoDB
- JavaScript, JQuery, TypeScript, Angular, React

- Unit Testing, CI/CD (GitLab)
- Agile Scrum, Kanban
- Power BI, ETL Integration

Agile Scrum Master - Fundação Vanzolini, May 2022

I had just started working with agile methodologies and wanted to learn more about Scrum. This course was a great introduction.

The Complete ASP.NET MVC 5 Course, Jan 2022

I have been working with ASP.NET MVC for a while, but I wanted to learn more about the framework and how to improve my skills.

Unit Testing for C# Developers, Sep 2021

I had never worked with unit testing before and wanted to learn more about it.

SQL 2008 - Módulo I, Dec 2010

I had just started working with SQL Server and needed to learn more so I could work with the database.

VB.NET 2005, Jul 2009

I did not have any experience with programming and needed to learn the basics to be able to developer a custom system for the company.
